

SPECS « la cuillère »

Page 0.

User connects on facebook at first use. From second connection he arrives directly on page 1.

Page 1.

User arrives on first page and has 2 choices :

1/ to select in a rolling menu between : « paris, 92,93,94,78,95 » (way 1)

or

2/ to enter in an other search bar the name of a restaurant. (way 2)

Way 1/ : User arrives on page 2.

Way 2/ If the user clicks on a restaurant, he arrives on page 3

Page 2.

All the restaurants of the choosen departments appear in a list.

Restaurants are classified from best note to worst note.

Page 3.

Page 3 : In this page there is all the details about the restaurant : pictures, adress, telephone number, etc (see sketch). At bottom of this page there is a button « Noter et donner un avis sur ce restaurant » (it means note and comment this restaurant).

The is a « call » button. If the user clicks on it, his phone will automatically call this number.

If the user clicks on the button « noter et donner un avis sur ce restaurant », the user arrives on page 4.

Page 4.

The user can note the restaurant with stars and write a comment. The user can go back on page 3 or

click on bottom button « publier l'avis ». (publish your comment). If he clicks on this button, the user arrives on page 5.

Page 5.

On this page the user can choose to publish his notes and comments on facebook (the name of the restaurant, his note and his comment). If the user chooses « oui » (yes), he arrives on page 6. If he user chooses « non merci » (no), he arrives on page 7.

Pages 6.

The user can see this page only 4 seconds then he is redirected to page 1.

IMPORTANT :

A user can only note and comment a restaurant once.
